# CONiX Testfleet Solution

The smart cloud-based fleet management software for test vehicles that streamlines operations from planning to analysis

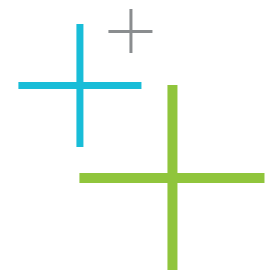

# + CONiX Testfleet Solution

The development of ADAS systems is highly complex and presents numerous challenges. In this rapidly evolving landscape, there's no room for wasted time or budget.

## Sound familiar with these challenges?

Introducing our CONiX Testfleet Solution - your key to efficiency and precision!

### 1. Usecase: Efficiently Manage Vehicle Setups

- + Difficult to keep track: Which hardware is installed where? Which software version is running on which vehicle?
- + Incorrect setups make test drives ineffective - valuable data is lost.
- + On-site software updates are timeconsuming, unorganized and inefficient.

#### How our CONiX Testfleet Solution helps:

- + **Digital Twin:** Always have full visibility of your vehicle setups - anytime, anywhere.
- + **Centralized Software Rollouts:** Deploy updates remotely and on schedule to the desired vehicles.

### 2. Usecase: Efficient Data Collection & Analysis

- + Hard to identify relevant data from test drives under specific conditions.
- + Uncertainty: Has enough data been collected for further development and validation?

#### How our CONiX Testfleet Solution helps:

- + **Intuitive Tagging:** Drivers can easily mark relevant scenes using an optimized interface.
- + **Powerful Analysis Tool:** Find exactly the data you need with just a few clicks.
- + **Live Progress Tracking:** Define test goals once in a campaign and monitor progress in real time.

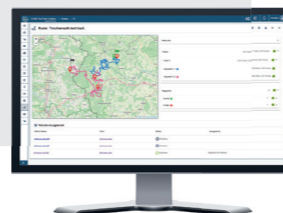

### 3. Usecase: Coordinating a Global Test Fleet

- + Complex invoicing and coordination of external test drivers worldwide.
- + High costs due to on-site troubleshooting ("Flying Doctor" interventions).
- + Risk of data loss from misplaced hard drives.

#### How our CONiX Testfleet Solution helps:

- + **Digital Shift Protocols:** Ensure clean documentation and transparent billing of test drives.
- + **Efficient Drive Planning:** Plan, monitor and verify that test routes are followed precisely.
- + **Storage Tracking:** Always know where your valuable raw data is stored.

# + Choose the Plan that Solves your Problem

With the flexible and modular architecture, our CONiX Testfleet Solution adapts perfectly to your needs - **whether you're managing a single vehicle or coordinating a global test fleet.** Designed to streamline and optimize your test operations, our solution ensures maximum efficiency, seamless integration and unparalleled adaptability!

## + For any Project Size

Whether you're a small team managing a handful of vehicles or a large organization managing global test operations, our solution scales effortlessly to meet your needs.

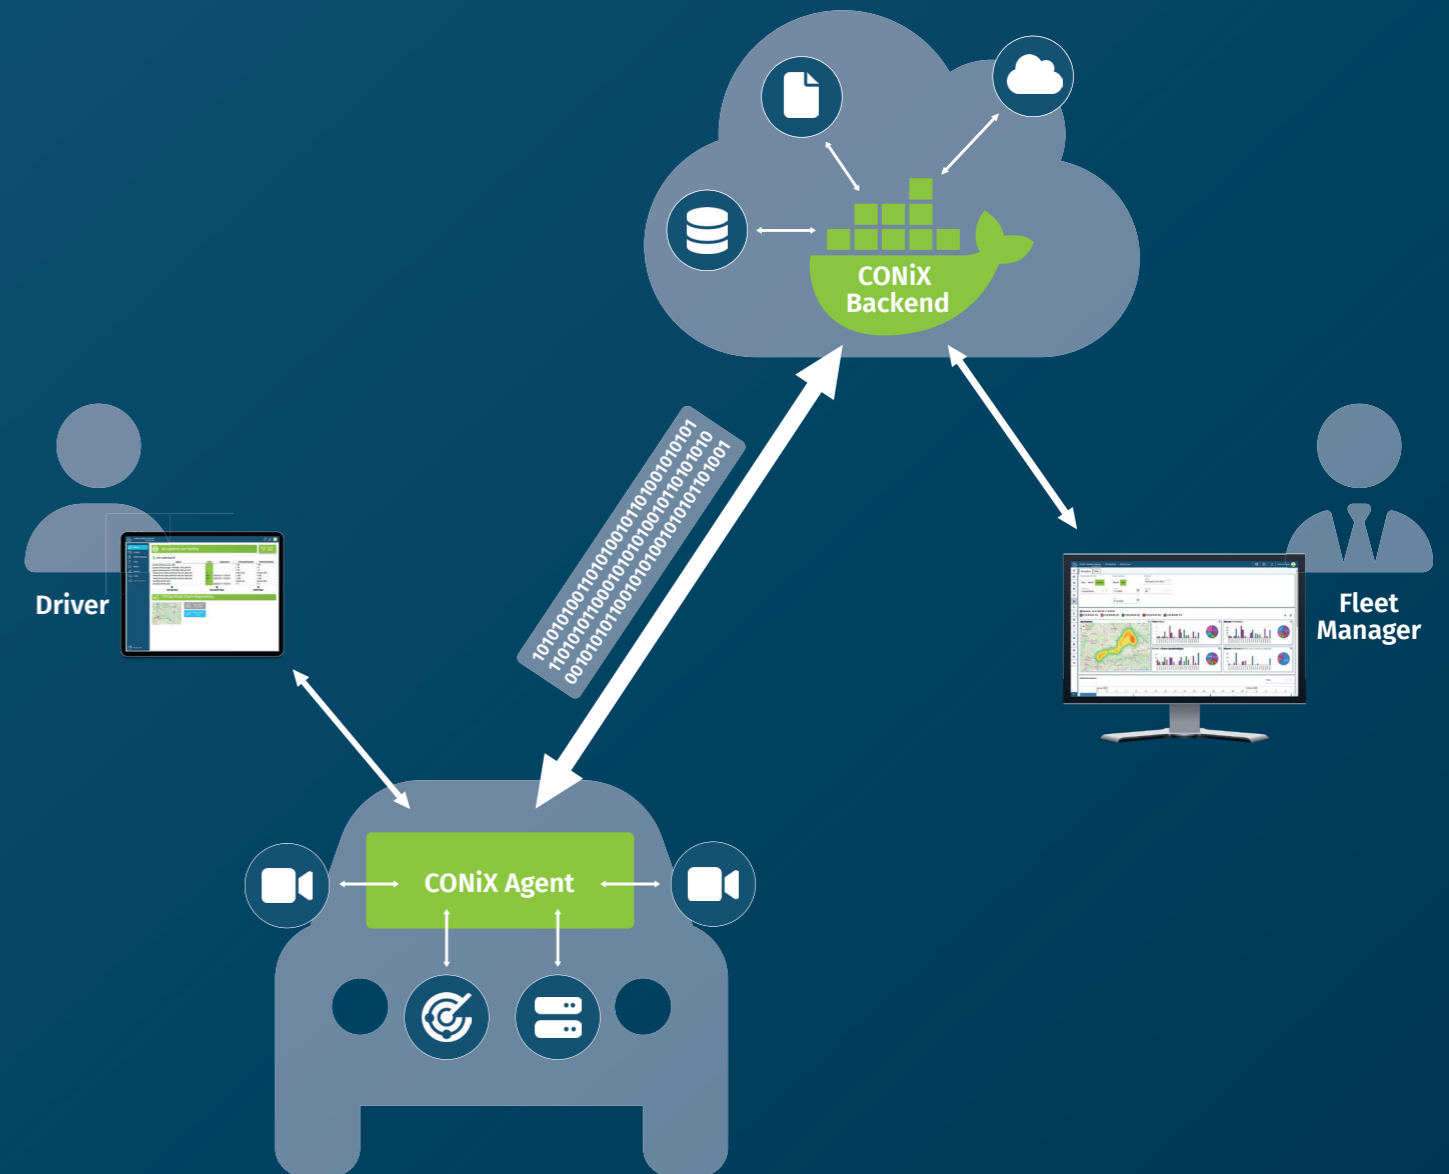

## + Maximum Flexibility

Deploy the platform on-premises for full control or choose the cloud provider of your choice for increased accessibility and scalability.

## + Fair and transparent Pricing

A scalable pricing model that adapts to your budget, ensuring you only pay for what you need, with no hidden costs.

The CONiX Testfleet Solution is a powerful tool for efficient, structured and customized test management - adapted to your specific requirements for smooth and effective operation!

Create a **smart interface** between your **testsystem** and the **cloud**

## + Time & Cost savings

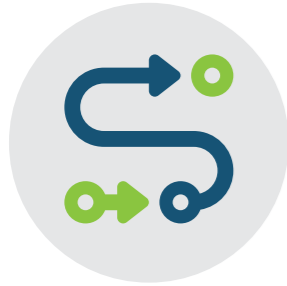

### No more failed Test Campaigns

With real-time monitoring, powerful health dashboards and instant alerts, you'll find and fix problems before they cost you money. Stay ahead and ensure flawless test success!

### Stop wasting Money on expensive On-Site Fixes

Gain secure remote access to measurement systems and use built-in communication tools to diagnose & resolve problems in no time - no more costly interventions, no more wasted hours!

### Automate Workflows

Say goodbye to manual errors and slow processes. Automate repetitive tasks, save valuable time and let your team focus on critical development work!

### Powerful Digital Solutions for ultimate Efficiency

Struggling with costly development challenges? Our intelligent tools streamline operations, increase productivity and take your business to the next level. Smart digital solutions simplify testing from planning to monitoring to reporting.

## + Some Features at a Glance

	<b>Drive Planning</b>	<ul style="list-style-type: none"> <li>+ Create optimal test routes with POIs</li> <li>+ Drivers use their favorite navigation system</li> </ul>
	<b>Component Management</b>	<ul style="list-style-type: none"> <li>+ Vehicle setup always in view</li> <li>+ From installed hardware to software versions</li> </ul>
	<b>Tasks</b>	<ul style="list-style-type: none"> <li>+ Easy, scheduled rollout of software updates across the fleet</li> </ul>
	<b>Labelling</b>	<ul style="list-style-type: none"> <li>+ Streamlined interface for on-the-go manual labeling</li> <li>+ Label only what you want with free label configuration</li> </ul>
	<b>Health-Status</b>	<ul style="list-style-type: none"> <li>+ Immediately detect system failures</li> <li>+ Prevent downtime</li> </ul>
	<b>Remote Access</b>	<ul style="list-style-type: none"> <li>+ Secure SSH tunnel for any protocol (SSH, RDP, etc.)</li> <li>+ Works without public IP</li> </ul>
	<b>Storage Tracking</b>	<ul style="list-style-type: none"> <li>+ Inventory your hard drives</li> <li>+ Keep track of your valuable data</li> </ul>
	<b>Campaigns</b>	<ul style="list-style-type: none"> <li>+ Define which data should be brought in via campaign targets</li> <li>+ Easily track progress</li> </ul>
	<b>Driving Data</b>	<ul style="list-style-type: none"> <li>+ Find the data you are interested in</li> <li>+ From a yearly overview of all fleets to a specific signal value in 3 clicks</li> </ul>

> **And that's not all:**  
Shift Protocols, Automation Rules, Issue Tracker, Chat, Documents Center, Vehicle Notes, User Management, Calendar, etc.

## + Curious but not quite Convinced yet?

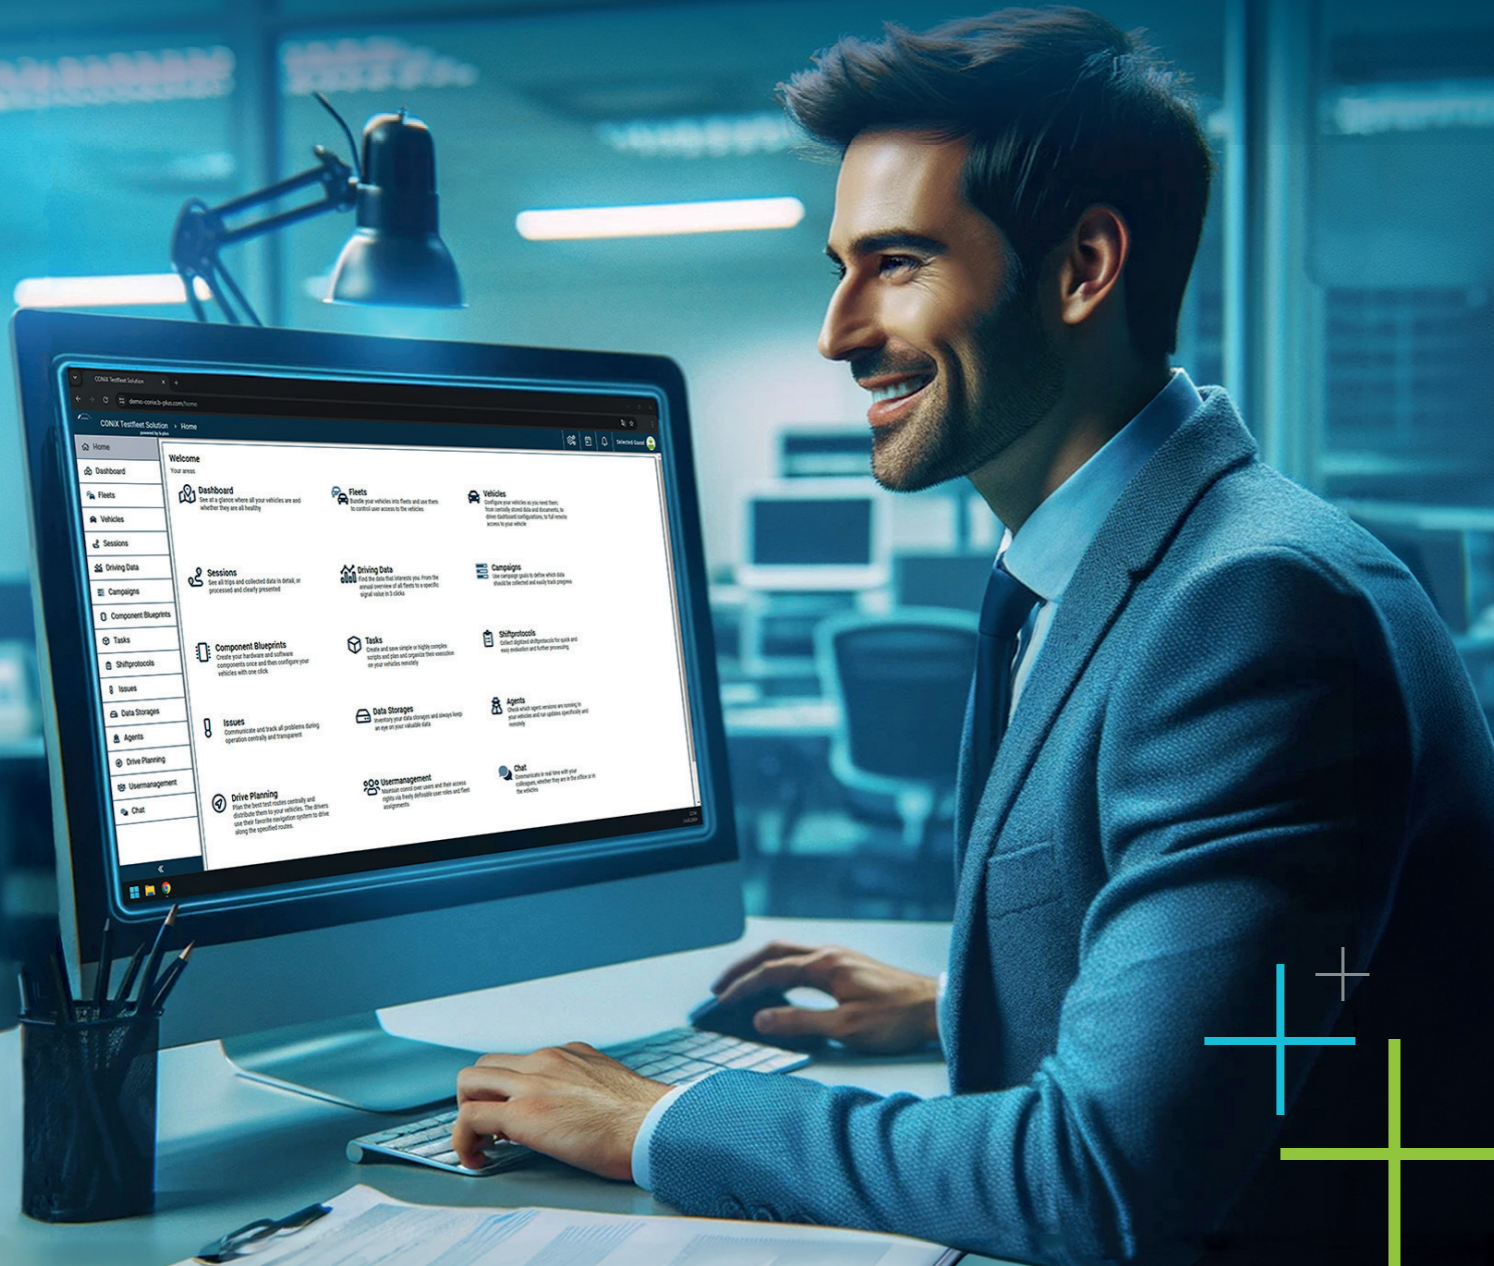

Why not see for yourself? Take a **hands-on tour** with our **free and fully functional demo** of the **CONiX Testfleet Solution** – no commitment, no strings attached!

Explore every feature at your own pace. Our system is designed so that all data, including your account, is automatically **reset every night at 1 AM UTC**. So go ahead – test, click and experience the platform worry-free!

- **Step 1:** Follow the QR-Code
- **Step 2:** Register with your email-address (your account and all associated data will be deleted overnight)
- **Step 3:** **Try it now and experience the difference!**

Want to see how your own vehicle data is processed and optimized in real time? **Let's set up a personalized test system just for you!** Reach out to us and we'll walk you through a tailored setup to match your needs.

## + What sets us Apart?

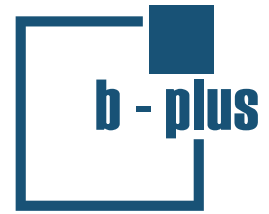

**b-plus** combines two major areas of expertise:  
**software solutions & hardware expertise**

Customers describe us as  
**exceptionally reliable & flexible**

As a **member of various committees**, we work independently & technology-driven on standard-oriented solutions for highest compatibility

With **cloud specialists** we ensure a secure & protected data transfer

Benefit from our **extensive experience for customer-optimized cloud solutions**
